- (a) the death does not appear to have been and is unlikely to appear later to have been, a result of conduct that constitutes a criminal offence; or
 - (b) the international legal obligation of Samoa or any other law does not require post-mortem to be performed.
- (7) If the objection under subsection (6) is not allowed by the coroner, the family of the deceased may apply for a review of the decision of the coroner by a Judge of the Supreme Court who may dismiss the application, confirm the decision of the coroner or decide whether the objection should be allowed.

Division 3 - Post-mortem

16. Power to direct post-mortem:

- (1) Subject to section 15(6), a coroner may direct a pathologist to perform a post-mortem of a body:
 - (a) for the purpose of enabling the coroner to decide whether to open an inquiry into the death concerned; or
 - (b) if the coroner is to open, or has opened and not completed, a coronial inquiry into the death concerned.
- (2) If the death of a person is or will be subject to police investigation, the coroner must direct a post-mortem of the body.
- (3) The pathologist must not be the doctor who attended to the person immediately before death.
- (4) The coroner must take into account the following when directing a post-mortem under subsection (1) or (2):
 - (a) the matters, required under this Act to be established by an inquiry, are not already disclosed by information available to or by any investigation or examination made by the coroner but are likely to be disclosed by post-mortem;
 - (b) whether a government Ministry or agency has ordered or likely to order under any enactment the post-mortem of the body;

- (c) whether the death appears to have been unnatural or violent, and if so, whether the death appears to have been due to the actions or inaction of other persons;
 - (d) the existence and extent of any allegations, rumours, suspicions, or public concern about the cause of death;
 - (e) the desirability of minimising the causing of distress to the family, by reason of their ethnic origins, social attitudes or customs, or spiritual beliefs, customarily require bodies to be available to family members as soon as possible after death;
 - (f) the desirability of minimising the causing of offence to the family, by reason of their ethnic origins, social attitudes or customs, or spiritual beliefs, find post-mortems of bodies offensive;
 - (g) the desire of any family member that a post-mortem should not be performed;
 - (h) any other matters the coroner considers relevant.
- (5) If the coroner directs a partial post-mortem examination, the coroner must consult:
- (a) the Police on any evidential matter that may make a full examination necessary; or
 - (b) the pathologist to carry out the post-mortem as to whether a lesser examination would limit the ability of the pathologist to determine the cause of death.
- (6) A coroner may direct the pathologist to do the post-mortem immediately if the coroner is satisfied that:
- (a) any delay would or may limit the ability of the pathologist to determine the cause of death;

- (b) the dead person is an infant;
 - (c) persons having the ethnic origins, social attitudes or customs, or spiritual beliefs of, or of a member of the immediate family of, the person concerned, customarily require bodies to be available to family members as soon as possible after death.
- (7) As soon as practicable after completing the post-mortem, the pathologist must give the coroner a written report on the results of the post-mortem.

17. Doctor's report:

- (1) A coroner may, by written notice, require the doctor who attended to the person before death to provide:
- (a) a written report;
 - (b) any medical file (including doctor's notes, x-ray films, computerised tomography scan and other medical records) relating to the person; and
 - (c) any other information set out in the notice relating to the person.
- (2) The doctor's report provided under subsection (1) is to be given to:
- (a) the pathologist performing the post-mortem; and
 - (b) the Commissioner of Police, if the death of the person is under police investigation.

18. Who may attend post-mortem:

The following persons are entitled to attend a post-mortem:

- (a) the appointed pathologist;
- (b) the doctor who attended to the person before death;
- (c) the family doctor or a family representative;

- (d) the doctor of the person charged or who may be charged with the death of the dead person;
- (e) a police officer;
- (f) any other person approved by the coroner.

19. Supreme Court may order post-mortem:

- (1) The Attorney General may apply to a Judge of the Supreme Court for an order that a pathologist be directed pursuant to section 16 to perform a post-mortem of a body if:
 - (a) the post-mortem of the body is necessary or desirable under this Act; and
 - (b) the coroner has failed or refused to direct a post-mortem to be carried out.
- (2) When the order is made, a coroner must direct a pathologist to carry out the post-mortem.
- (3) The body held for post-mortem under this section must not be released from the custody of the coroner until the Attorney General has obtained an order from the Supreme Court for the body to be released to the family.

**Division 4 - Release of body and
retention of body parts, etc.**

20. Release of body:

- (1) A coroner who receives a death report must, if not prohibited from doing so by section 21 or 22, authorise the release of the body concerned as soon as he or she is satisfied that it is no longer necessary to withhold it from family members.

- (2) The coroner may, if not prohibited from doing so by section 21 or 22 and in the approved form signed by the coroner, authorise the release of the body.

21. Restriction on release if no post-mortem directed:

- (1) A coroner who decides not to direct a pathologist to perform a post-mortem of a body must not authorise its release under section 20 earlier than 24 hours after notifying the Commissioner of Police of the decision.
- (2) Subsection (1) does not apply if the Commissioner of Police consents for the coroner to authorise the release of the body within the 24-hour period referred to in that subsection.
- (3) The coroner may review the decision under subsection (1) not to direct a post mortem if the Commissioner of Police or the Attorney General provides information, within that 24-hour period, that relates to any matter to be taken into account under section 16(4).

22. Restriction on release if parts or samples to be retained:

A coroner who:

- (a) directs a pathologist to perform a post-mortem of a body; and
- (b) knows the pathologist wishes to retain a body part or bodily sample under section 25(2),

must not authorise the release of the body under section 20 without first having determined as soon as practicable whether the retention of the part or sample is permitted by section 25(2).

23. Release of body of still-born child:

A coroner may authorise the release of a child under section 20 (and references in this Act to the body is taken to include a reference to the child) if:

- (a) the coroner directed a pathologist to perform a post-mortem of the child; and
- (b) the pathologist concluded, as a result of the post-mortem, that the child is a still-born child; and
- (c) the coroner therefore determines that the only jurisdiction he or she has to act further on the child is to authorise the release of the child under this section.

24. Body parts and samples:

- (1) A pathologist may, with no further authority than this section, receive or remove a body part, take a bodily sample, or both, if the pathologist believes on reasonable grounds that the receipt, removal, or taking concerned is necessary for the purposes of a post-mortem of a body.
- (2) A body part removed, or bodily sample taken, by a pathologist for the purposes of the post-mortem must be as small as possible for the kind of analysis or examination for which the part is removed or the sample is taken.
- (3) The number of body parts received or removed, bodily samples taken, or both, must be minimal and be no greater than is necessary for the purposes of the post-mortem.

- (4) This section does not prevent any other receipt, removal, or taking of a part or sample authorised by law.

25. Retention of body parts and samples on release of body:

- (1) This section applies to a body if:
 - (a) a coroner has directed under section 16 that a post-mortem of the body be performed, and proposes to authorise the release of the body under section 20; and
 - (b) the pathologist has removed a body part or taken a bodily sample, or has received a body part separately from other parts of the body concerned.
- (2) The pathologist is, when the body is released, permitted to retain the body part or bodily sample, but only if:
 - (a) the part or sample is a minute one received, removed, or taken for microscopic analysis, or other analysis that requires only a minute part or sample, and is, in the pathologist's opinion, necessary for the purposes of the post-mortem; or
 - (b) the retention is, in the pathologist's opinion, necessary for the purposes of the post-mortem; or
 - (c) the pathologist explained to the family members or other persons to whom the body is to be released that the pathologist proposed to retain the part or sample for a specified purpose and none of those members or persons objected to the pathologist's proposal.
- (3) A coroner may impose other conditions and requirements for the release or retention of body parts, including requirements for consulting:

- (a) the family members;
- (b) any other person to whom the body is to be released; and
- (c) if so required, the Commissioner of Police.

PART 4
CORONIAL INQUIRIES AND INQUESTS

Division 1 - Coronial inquiries

26. Purpose:

- (1) The purpose of a coronial inquiry is to conduct a preliminary investigation or inquiry into a death:
 - (a) to establish (so far as possible) -
 - (i) that the person has died (for coronial inquiry into a missing person, is presumed dead);
 - (ii) the identity of the person;
 - (iii) when and where the person died;
 - (iv) the cause of death;
 - (v) the circumstances of death;
 - (b) to make recommendations and comments;
 - (c) to decide whether public interest would be served if the death is referred to be investigated by the Police or another government authority.
- (2) It is not the purpose of a coronial inquiry or inquest to determine civil, criminal or disciplinary liability.

27. Adverse comments:

- (1) A coroner may, in the course of, or as part of the findings of, an inquiry, comment on the conduct, in relation to the circumstances of the death concerned, of any person.
- (2) The coroner must not comment adversely on a dead person without:
 - (a) indicating an intention to do so; and

- (b) adjourning the inquiry for at least five (5) working days; and
 - (c) notifying every member of the person's immediate family who during the adjournment requests the coroner to do so in relation to the proposed comment; and
 - (d) giving every such member a reasonable opportunity to be heard, either personally or by a lawyer, in relation to the proposed comment.
- (3) The coroner must not comment adversely on any other person without:
- (a) taking all reasonable steps to notify the person of the proposed comment; and
 - (b) giving the person a reasonable opportunity to be heard, either personally or by a lawyer, in relation to the proposed comment.
- (4) Notifications, or opportunities to be heard, required to be given to the person that is a body corporate (including an unincorporated body) must be given to an officer or other representative of the body corporate who is, or appears to be, authorised by the body corporate for the purpose.
- (5) This section overrides section 26, but is subject to section 30.

28. Coroner to open inquiry:

- (1) After a coroner receives a death report, the coroner may open and conduct a coronial inquiry if:
- (a) the body of the person concerned is in Samoa; or
 - (b) the coroner is satisfied that it is likely that the person concerned is dead, and that the person's body -
 - (i) is destroyed, irrecoverable, or lost; but

- (ii) was in Samoa immediately before it was destroyed, or became irrecoverable or lost; or
- (c) the body of the person concerned is not in Samoa, but -
 - (i) the death occurred outside Samoa on or from a Samoa craft; and
 - (ii) the Attorney General has authorised the coroner to open a coronial inquiry into the death.
- (2) Subject to subsection (1) and section 29, a coroner who receives a death report must conduct a coronial inquiry into the death:
 - (a) if the death appears to have been -
 - (i) self-inflicted; or
 - (ii) a death within paragraph (a)(iv) of the definition of “death”; or
 - (b) if the coroner is not satisfied that the matters required by this Act to be established by a coronial inquiry are already adequately disclosed in respect of the death by information arising from investigations or examinations the coroner has made or caused to be made.
- (3) In deciding whether to open and conduct a coronial inquiry, a coroner must have regard to the following matters:
 - (a) whether or not the causes of the death concerned appear to have been natural; and
 - (b) for a death that appears to have been unnatural or violent, whether or not it appears to have been due to the actions or inaction of any other person; and
 - (c) the existence and extent of any allegations, rumours, suspicions, or public concern, about the death; and

- (d) the extent to which the drawing of attention to the circumstances of the death may be likely to reduce the chances of the occurrence of other deaths in similar circumstances; and
- (e) the desire of any members of the immediate family of the person who is or appears to be the person concerned that an inquiry should be conducted; and
- (f) any other matters the coroner thinks fit.

29. Coroner may decide not to open inquiries:

- (1) Subject to sections 55 to 57, the coroner who has received a death report may decide not to open a coronial inquiry into the death if satisfied that:
 - (a) the death occurred outside Samoa, or was caused by matters arising outside Samoa; and
 - (b) a coronial inquiry into the death has been or will be conducted outside Samoa.
- (2) Subject to sections 55 to 57, the coroner who has received a death report may decide not to open a coronial inquiry into the death if satisfied that the death occurred outside Samoa, and otherwise than on or from a Samoan craft.
- (3) A coroner who decides not to open an inquiry into a death must notify the Attorney General of the decision in the approved form.
- (4) The approved form must:
 - (a) contain or have attached to it (as the case requires) the prescribed information (which must include the coroner's reasons for the decision); and
 - (b) be accompanied by a written statement as to the identity of the person concerned and that -

- (i) is signed by the person making it; and
 - (ii) shows that the person's signature has been witnessed either by a police officer or a person authorised under section 21 of the Oaths, Affidavits and Declarations Act 1963.
- (5) A coroner who, after deciding not to open a coronial inquiry, becomes satisfied (whether because of information not available at the time of deciding, or for any other reason) that it is desirable to open the inquiry into the death concerned, may do so.

30. Procedure if person is charged with offence:

- (1) This section applies to a coroner who has received a death report and who:
 - (a) has been informed that some person has been, or may be, charged with a criminal offence for the death or its circumstances; and
 - (b) is satisfied that to open or (as the case requires) proceed with a coronial inquiry might prejudice the person.
- (2) The coroner may:
 - (a) postpone opening a coronial inquiry into the death; or
 - (b) open a coronial inquiry into the death and then adjourn the inquiry; or
 - (c) adjourn a coronial inquiry already opened into the death.
- (3) A coronial inquiry postponed or adjourned under subsection (2) must not proceed or be opened until any criminal proceedings against a person relating to the death has been finally concluded as specified in subsection (5).
- (4) As an exception to subsection (3), a coroner who has under subsection (2) postponed or adjourned an inquiry may later open or resume it if satisfied that:

- (a) a person is no longer to be charged with a criminal offence for the death or its circumstances; or
 - (b) to open or resume the inquiry would not prejudice the person charged, or thought likely to be charged, with a criminal offence for the death or its circumstances.
- (5) In subsection (3), criminal proceedings are finally concluded if no appeal (or, as the case requires, no further appeal) can be made in the course of the proceedings unless the Supreme Court or the Court of Appeal grants an extension of time.

31. Other investigations:

- (1) A coroner may postpone opening, or adjourn a current, coronial inquiry if the coroner is satisfied that:
- (a) an investigation into the death concerned or its circumstances is being or likely to be conducted under any other enactment; and
 - (b) the matters set out in section 26 are likely to be established by the investigation; or
 - (c) to open or continue with the current inquiry would be likely to prejudice the investigation or any person interested in it.
- (2) A coroner who has under subsection (1) postponed or adjourned an inquiry may open or resume it if satisfied that:
- (a) an investigation into the death or the circumstances in which it occurred is not likely to be conducted under any enactment other than this Act; or
 - (b) an investigation of that kind is being or is to be conducted, but -

- (i) the matters specified in section 26 are unlikely to be established in respect of the death by the investigation; and
 - (ii) to open or resume the inquiry will not prejudice the investigation or any person interested in it.
- (3) Without limiting subsection (1), a coroner conducting an inquiry may refer the death concerned to any other investigating authority if the coroner determines that the public interest would be served by the death concerned being investigated by it when carrying out its functions, duties or powers.
- (4) A referral under subsection (3) does not limit or affect the coroner's role, or the functions, powers, and duties of the investigating authority, in relation to the death concerned.

32. Coroner may decide not to open or resume inquiry:

- (1) This subsection applies to an inquiry postponed or adjourned under section 30 or 31.
- (2) A coroner:
 - (a) may decide not to open or resume an inquiry to which subsection (1) applies if satisfied that the matters specified in section 26 have been adequately established in respect of the death concerned in the course of the criminal proceedings or investigation concerned; and
 - (b) must send a copy of the decision to the Attorney General.
- (3) Subsection (2) applies whether or not the criminal proceedings are finally concluded (as specified in section 30(5)) and overrides section 28.

33. Restrictions on making public of details of self-inflicted deaths:

- (1) A person must not, without the prior approval of a coroner, make public any detail relating to the manner in which a death occurred if:
 - (a) the death occurred in Samoa after the commencement of this Act; and
 - (b) there is reasonable cause to believe the death was self-inflicted; and
 - (c) a coronial inquiry into the death has not been completed.
- (2) If a coroner has found a death to be self-inflicted, a person must not, without the prior approval of a coroner, make public a detail of the death other than:
 - (a) the name, address, and occupation of the person concerned; and
 - (b) the fact that the coroner has found the death to be self-inflicted.
- (3) The only ground on which a coroner may under this section approve the making public of details of the death (other than those specified in subsection (2)) is that the making public of detail of that kind is unlikely to be detrimental to public safety.
- (4) In determining whether the ground specified in subsection (3) is made out, a coroner must have regard to:
 - (a) the characteristics of the person who is, or is suspected to be, the dead person concerned; and
 - (b) matters specified in any relevant practice notes issued under section 81; and
 - (c) any other matters the coroner considers relevant.
- (5) In this section:

“make public” means publish by means of:

- (a) broadcasting under the Broadcasting Act 2010; or
- (b) a newspaper; or
- (c) a book, journal, magazine, newsletter, or other similar document; or
- (d) a sound or visual recording; or
- (e) an Internet site that is generally accessible to the public, or some other similar electronic means.

“**detail**”, for a death, means a detail about the manner in which the death occurred, the circumstances of the death, or a coronial inquiry into the death.

34. Coroner may prohibit making public of evidence given at any part of inquiry proceedings:

If satisfied that it is in the interests of justice, decency, public order, or personal privacy to do so, a coroner may prohibit the making public of:

- (a) any evidence given or submissions made at or for the purposes of any part of the proceedings of an inquiry; and
- (b) the name, and any name or details likely to lead to the identification, of any witness.

35. Review of coroner’s decision as to making public of details, evidence, etc.:

- (1) A person may apply to a Judge of the Supreme Court for a review of the refusal or prohibition if the person is affected by:
 - (a) a refusal to approve the making public of details of a death under section 33; or
 - (b) a prohibition under section 34.

- (2) Until the Judge reaches a decision on the application, the refusal or prohibition concerned continues in effect.
- (3) The Judge may:
 - (a) confirm the refusal, or revoke it and issue, with or without conditions, an approval; or
 - (b) confirm, modify, or revoke the prohibition.

36. Persons from whom evidence generally to be heard:

- (1) Except as provided in other sections of this Act, for the purposes of a coronial inquiry, a coroner must (at an inquest or otherwise) receive evidence from a person:
 - (a) who offers, in respect of the death concerned, evidence relevant to any matter required by section 26(1)(a) to be established; or
 - (b) whom the coroner thinks appropriate to examine.
- (2) The evidence received may be expert evidence.

37. Hearing on papers and chambers findings:

- (1) This subsection applies to a coroner who is satisfied that no person who, under section 36, is a person from whom evidence is generally to be heard for the purposes of an inquiry wishes to give evidence in person for the purposes of the inquiry.
- (2) A coroner to whom subsection (1) applies may, instead of holding an inquest, hold a hearing on the papers and make chambers findings if the coroner:

- (a) gives notice under section 41 of the coroner's proposal to hold a hearing on the papers and make chambers findings, as if that proposal were an inquest; and
 - (b) has, at or after the end of the period referred to in subsection (3), received no notification of an intention to give evidence in person from a person who, under section 36, is a person from whom evidence is generally to be heard for the purposes of an inquiry.
- (3) The notice given under subsection (2)(a) must state the period (which must be a period that the coroner considers reasonable in the circumstances) within which a person to whom the notice is to be given may notify the coroner of an intention to give evidence in person.
- (4) A coroner who has given notice under subsection (2)(a) must hold an inquest instead of holding a hearing on the papers and making chambers findings if the coroner receives no notification under subsection (2)(b).

38. Protection for witnesses and lawyers:

The following have the same privileges and immunities as witnesses and lawyers in Courts:

- (a) witnesses giving evidence (whether at inquests or otherwise) for the purposes of inquiries opened under this Act;
- (b) a person being heard, under section 27(2) or (3), on a proposed adverse comment by a coroner in the course, or as part of the findings, of an inquiry;
- (c) lawyers appearing before coroners (whether at inquests or otherwise) for the purposes of this Act.

39. Admission and verification of evidence:

- (1) A coroner may, for the purposes of an inquiry, admit any evidence the coroner thinks fit, whether or not it would be admissible in court.
- (2) As an exception to subsection (1), a coroner must not admit any evidence for the purposes of an inquiry unless satisfied that its admission is necessary or desirable for the purposes stated in section 26.
- (3) Evidence given by a witness for the purposes of an inquiry must, if the evidence is admitted by the coroner and not given at an inquest held for the purposes of the inquiry, be put into writing, read over by or to the witness, and signed by the witness.

Division 2 - Conduct of inquests**40. Decision to hold inquest:**

- (1) A coroner conducting a coronial inquiry into a death:
 - (a) must decide to hold a coronial inquest if the death is a death within the meaning of paragraph (a)(iv) of the definition of "death"; or
 - (b) may decide to hold a coronial inquest if the death does not appear to have been a death specified under paragraph (a).
- (2) Inquest may not be held if post-mortem or preliminary inquiry reveals death by natural causes.

41. Date, etc., and notice of inquest:

- (1) A coroner who decides to hold an inquest must:

- (a) fix a date, time, and place for the inquest; and
 - (b) comply with section 15 on the date, time, and place fixed for the inquest and at least 10 working days before the date fixed; and
 - (c) give notice, at least 10 working days before the date fixed, of the date, time, and place fixed for the inquest to every person (not being a person to be notified under section 15) who has a sufficient interest in the subject or outcome of the inquiry concerned.
- (2) A coroner who becomes aware before or during the inquest that the person who has a sufficient interest in the inquiry concerned includes a person who was not given notice under subsection (1) must:
- (a) adjourn the inquest so as to permit the person to prepare for, and attend, the inquest; and
 - (b) fix a new date, time, and place for the inquest and ensure that a notice for the new date, time, and place for the inquest is given to the person.
- (3) Without affecting or limiting sections 55 to 57, a failure to comply with subsection (1) or (2) does not affect the validity of any action taken by or on behalf, or at the direction, of a coroner.

42. Inquests usually to be before coroner alone:

Except as provided in section 43, an inquest must be held before a coroner sitting alone.

43. Specialist advisers to sit with and help coroners:

- (1) If satisfied that it is desirable to do so, a coroner may appoint a cultural, legal, medical, or other specialist adviser to sit with to help and advise the coroner at an inquest by giving advice.

- (2) The coroner's recommendation that a specialist adviser be appointed must be made after having regard to any relevant practice notes issued under section 81.
- (3) The specialist adviser must give the advice:
 - (a) on any questions referred to the specialist adviser; and
 - (b) in any manner the coroner may direct.
- (4) The appointment of a specialist adviser ends when the coroner conducting the inquest concerned completes and signs a certificate of findings in relation to the death concerned.
- (5) Advice given by a specialist adviser may be given any weight the coroner thinks fit.

44. Joint inquests:

- (1) This section applies to a coroner who opens two (2) or more separate coronial inquiries relating to two (2) or more deaths arising out of the same incident or series of incidents or same natural disaster.
- (2) A coroner to whom subsection (1) applies may, if the coroner thinks fit to do so, decide to hold a single coronial inquest for the purposes of the separate coronial inquiries referred to in that subsection.
- (3) A joint coronial inquest held pursuant to a decision under subsection (2) is conducted in the same way as any other inquest, except that in holding the inquest the coroner must have regard to any relevant practice notes issued under section 81.

45. Inquests usually to be public:

Subject to sections 34, 46, and 47, an inquest must be held in a place that is open to the public.

46. Coroner may exclude person from inquest:

A coroner may exclude any person from all or any part of an inquest.

47. Coroner may exclude witness until the witness gives evidence:

A coroner may direct any witness whose evidence has not yet been heard at an inquest to remain, or go and remain, outside the place where the inquest is being held until required to give evidence.

48. Evidence:

A person who gives evidence at an inquest:

- (a) must (unless doing so by a written statement under section 50) do so orally on oath or affirmation; and
- (b) may be cross-examined (either personally or by a lawyer) by the coroner or a person specified in section 49(1).

49. Others who may cross-examine at inquest:

- (1) The following persons may, personally or by a lawyer, attend an inquest (and, with leave of the coroner, cross-examine a witness):
 - (a) any person to be given notice under section 15; and

- (b) any person notified of the date, time, and place of the inquest under section 41(1)(b) (either alone, or as applied by section 41(2)(c)).
- (2) A question asked during cross-examination of a witness must be relevant to any of the purposes in section 26.
- (3) This section:
 - (a) is subject to sections 46 and 47; and
 - (b) does not affect the coroner's powers to regulate the procedure of, or maintain order at, the inquest.

50. Evidence by written statement confirmed by witness:

- (1) A witness at an inquest may give any evidence by tendering a previously prepared written statement and confirming it on oath or affirmation if:
 - (a) the coroner is satisfied that there is no reason making it desirable for the witness to give the evidence orally; and
 - (b) no person attending the inquest who is entitled to cross-examine the witness objects.
- (2) A witness who gives evidence at an inquest under subsection (1) may be cross-examined as if the written statement had been given orally; and the written statement concerned forms part of the depositions of the inquest.

51. Evidence at distance for purposes of inquest:

- (1) This subsection applies to a coroner who:
 - (a) intends to hold, or is holding, an inquest; and

- (b) is satisfied that it is necessary or desirable to have any evidence taken at a place other than the place where the inquest is to be, or is being, held.
- (2) A coroner to whom subsection (1) applies may, by written notice signed by the coroner, authorise some other coroner or, if no other coroner is available, a lawyer (of at least five (5) years practice) to take the evidence.
- (3) A coroner or lawyer taking evidence under subsection (2):
 - (a) has the same powers on taking of the evidence as the coroner holding the inquest concerned; and
 - (b) must give notice under section 41 of the taking of the evidence as if it were the inquest concerned.
- (4) Sections 36, 39, 48, 49 and 50 apply to the taking of evidence under subsection (2) as if it were being taken at an inquest.
- (5) Evidence given by a witness under subsection (2) and admitted by a coroner or lawyer must be put into writing, read over to or by the witness, and signed by the witness and the coroner or lawyer, who must send the evidence to the coroner holding the inquest concerned; and that coroner must receive the evidence and act upon the evidence as if the evidence had been given and admitted at the inquest concerned.

Division 3 - Completion of inquiry

52. Body must be viewed before certain inquiries concluded:

- (1) A coroner must not issue a certificate of interim findings, or conclude an inquiry, unless satisfied the body concerned:

- (a) has been viewed in Samoa; or
- (b) is destroyed, irrecoverable, or lost, but was in Samoa immediately before the body -
 - (i) was destroyed; or
 - (ii) became irrecoverable or lost.
- (2) Subsection (1) does not apply to an inquiry the opening of which was authorised by the Attorney General under section 28(1)(c).

53. Interim certificate of findings:

Before concluding a coronial inquiry or inquest, the coroner conducting it:

- (a) may, after considering all the evidence admitted to date for the purposes of the inquiry, and in the light of the purposes stated in section 26, complete and sign an interim certificate of findings, in the approved form, recording the fact and cause of death concerned; and
- (b) must state the reasons for the findings or cause of death; and
